

PROJECT DOCUMENTATION

A CRM Application for THE CHAI SHOP & CO

Team Leader: Keerthana A | Team Members: B Keerthika, Kirubaran S, Kishore P, Madhan F

1. ABSTRACT

The CRM Application for CHAI SHOP & CO is a simple web-based system used to manage customer details, products, orders, sales, and feedback. It reduces manual work, saves time, and helps the shop maintain records easily.

2. INTRODUCTION

CHAI SHOP & CO serves tea, beverages, and food items. Managing customer and order details manually can be difficult. This CRM application stores the information digitally and helps staff manage shop activities in an organized way.

3. PROBLEM STATEMENT

- Customer details are maintained manually.
- Searching records takes more time.
- Order and sales records may be difficult to manage.
- Feedback is not easy to track.
- Manual work may cause errors.

4. OBJECTIVES

- To store customer details digitally.
- To manage products and orders.
- To maintain sales records.
- To store customer feedback.
- To reduce paperwork and save time.
- To improve customer service.

5. MODULES

- **Admin Module:** Manages customers, products, employees, orders, sales, and reports.
- **Customer Module:** Allows registration, profile management, menu viewing, order placement, and feedback.
- **Product Module:** Allows adding, updating, deleting, and viewing products.
- **Order Module:** Manages customer orders and order status.
- **Feedback Module:** Stores ratings, reviews, and suggestions.
- **Sales and Reports Module:** Displays sales details and useful reports.

6. SYSTEM REQUIREMENTS

Category	Requirements
Hardware	Intel Core i3 or above, 4 GB RAM or above, 100 GB hard disk, Keyboard, mouse, and monitor

Software	Windows 10/11, HTML, CSS, JavaScript, Bootstrap, PHP, MySQL, XAMPP, Google Chrome or Microsoft Edge
-----------------	---

7. SYSTEM FLOW

Start → Login / Registration → Authentication → Dashboard → Manage Customers / Products / Orders → Store Data in Database → View Reports → Logout → **End**

8. CONCLUSION

The CRM Application for CHAI SHOP & CO helps manage customer information, products, orders, sales, and feedback. It reduces manual work, saves time, improves accuracy, and provides better customer service.

9. SALESFORCE PROJECT DETAILS

The CRM Application for THE CHAI SHOP & CO is developed as a Salesforce-based group project. The project uses Salesforce features to manage customer information, products, orders, sales, feedback, and customer engagement in an organized way.

10. SALESFORCE FEATURES USED

- Salesforce Developer Account
- Objects and custom data management
- Tabs and Lightning App
- Global Picklist
- Fields and Relationships
- Page Layouts
- Record Types
- Validation Rules
- Email Templates
- Flows and process automation
- Reports and Dashboards

11. AUTOMATION

The application includes automation using Salesforce Flow. Email notifications can be automated for customers on their birthdays, along with special offers. This helps improve customer engagement and loyalty.

12. SKILLS REQUIRED

- Salesforce
- Flow Designer and Process Automation
- Data Modelling
- Data Validation
- Page Layout

13. PROJECT WORK / TASKS

- Creating Salesforce Developer Account & Activating the Salesforce Account
- Creating and managing Salesforce Objects, Tabs, and Lightning App

- Configuring Global Picklist, Fields, Relationships, and Page Layouts
- Creating Record Types, Validation Rules, and Email Templates
- Creating Flows for automation, Reports, and Dashboards

14. PROJECT PROGRESS

The project dashboard shows approximately **90% project progress**. The project contains **13 epics** and **25 stories/subtasks**.

15. TEAM

Team Leader: Keerthana A

Members: B Keerthika, Kirubaran S, Kishore P, Madhan F
